YOU LITTLE CARELESS BRAT! You can't even get the hook on right

Anyan's comments:

As always, the annual pool special...

It's been awhile since the J-15 successfully took off and landed but I finally got around to drawing it.

I wanted to make the J-15 make the famous 'pierce' gesture of the deck crew but it was really weird so I gave up.

Tomcat's swimsuit is based on the VF-103 Jolly Roger livery... but now the VFA-103 uses the Super Hornet...

The X-47 should be tabled until it gets a little big.

The C-130 is the heaviest aircraft that can land on an aircraft carrier. Please enjoy her beautiful body.
